

SOUTHEAST VALLEY OBSTETRICS & GYNECOLOGY, PLC

480-464-2101

WELCOME TO SOUTHEAST VALLEY OB/GYN

Today you are here for your well woman annual appointment. This includes obtaining or updating your medical history, a physical examination and a pap smear. **Please remember that we only handle the sample for the Pap smear and do not run the actual test. The test is run by a lab and they will bill you or your insurance company separately.** Also, if appropriate for your needs we may prescribe birth control, hormone replacement, mammogram and a bone density.

Most insurance plans allow for a physical examination, Pap smear, and screening labs during a well woman appointment and do not require a referral for this service. However, referrals are required for any problem oriented visit. If you are experiencing any problems, we will need to schedule you an appointment. **You will be required to obtain a referral from your primary care provider prior to that visit.**

Please sign and return to the receptionist.

Sincerely,

Dr. Sidney Semrad, D.O., F.A. C.O.O.G
Dr. Jeffrey Izenberg, D.O., F.A.C.O.O.G
Dr. Shary Borhan, M.D.
