

SOUTHEAST VALLEY OBSTETRICS & GYNECOLOGY, PLC

480-464-2101

Dear patient,

This office participates in many different types of health care programs. Each PPO, HMO, or health plan is different and can have many different sub-plans or groups. Frequently, we may collect your co-payment here and submit the remainder of the bill to your plan for reimbursement. We cannot tell from your insurance card what is covered by your particular plan. You, as the insured person, are responsible for knowing about your policy and its coverage.

Your doctor may order a test or procedure because he/she feels it is necessary to make a diagnosis, without being aware of what your insurance or health care plan covers. If there is a problem, you should notify him/her at that time so arrangements can be made. Any portion of your bill identified by your insurance plan as being your responsibility to pay will be billed to you for payment.

Thank you,

---
